5 Processing we in particular would like to draw your attention to

5.1 Automated decision-making

Automated decision-making means a fully automated process where the decision in question is made using algorithms, i.e. without the involvement of a human being. We have automated processes for applications for savings account, credit, account opening and Know Your Customer (KYC).

We use automated decision-making when it comes to accepting/rejecting your application. Such automated decision-making is based on the information you provide in your application and is used solely to assess whether our acceptance criteria are met or not.

You always have the right to contact us if you are not satisfied with the decision and want to challenge it. We will then review the information behind the decision and any additional information you provide us. The review will be conducted by a human who is authorised to change the decision if it turns out that it was made on incorrect grounds.

In the case of automated decision-making, your application may not provide us with the sufficient information to approve your application. You will then be asked to contact us. This does not mean that your application has been rejected, but only that we need additional information to be able to complete your application.

6 Where is your data processed?

We always strive to process your personal data within the EU/EEA and all our data storage takes place within the EU/EEA. However, in certain situations we may need to transfer your personal data to partners or service providers located outside the EU/EEA (third countries). The third countries to which we transfer personal data are Australia, Canada, India, Malaysia, Switzerland, Serbia, Sri Lanka and the USA.

Regardless of where your personal data is processed, we implement all reasonable and/or required contractual, technical and organisational measures to ensure that the level of protection is equivalent to that of the EU/EEA. We always ensure that there is an appropriate transfer mechanism in place and we therefore generally use the [European Commission's standard contractual clauses](#), which you can find [here](#). We also take additional technical and organisational security measures where necessary, such as encryption and pseudonymisation. For transfers to Switzerland and the USA, an adequacy decision of the European Commission is applied, which you can find [here](#).

- If the processing is unlawful and you do not want the personal data to be erased,
- When we no longer need to process the personal data for the purposes for which we collected it, but you need it to be able to establish, exercise or defend legal claims,
- If you have objected to processing based on our legitimate interest. Then you can request that we restrict the processing while we investigate whether our interest in processing your personal data outweighs your interests.
