What is this product?

Type

The Fund is a UCITS and a sub-fund of Carnegie Investment Fund ("CIF"), an investment company with variable share capital (SICAV) organized as an umbrella fund governed by Luxembourg law.

Term

The Fund is open-ended but may, at any time, be dissolved by decision of the shareholder's meeting. For more information about this, see the Prospectus of the Fund

Objectives

The Fund aims to achieve long-term returns at least in line with the performance of the Stockholm stock exchange. To achieve this, the Fund invests at least 80% of its assets in equities and equity-related instruments in Swedish Companies. The investment manager has full discretion on deciding what equities to invest in without any reference to a benchmark and selection is made based on an analysis of the expected return relative to risk, both short term and long term. The Fund may also invest in other transferable securities, money market instruments, fund units and other investments with equity-like characteristics. In order to make management more efficient, the Fund can also invest in derivative instruments, both long and short, both to protect (hedge) and to take active market risk and may as well enter into securities lending transactions to improve performance and generate

income. The Share Class does not pay dividends, all income and capital gains are reinvested. Shareholders may redeem its shares any day on which banks are open for business in Luxembourg, other than 24 December.

Intended Retail Investor

The Fund may be suitable for retail investors planning to keep the investment for 5 years and who understand that the money invested in the Fund can both increase and decrease in value and that they may not get back the full amount invested. Investors should have a basic knowledge and/or experience of UCITS funds and financial markets.

The performance of the Fund depends on if the Fund's investments increase or decrease in value during the holding period.

Depository: RBC Investor Services Bank S.A.

The prospectus, annual and semi-annual reports (in English) relate to CIF as a whole and can be obtained free of charge on www.carnegie.se together with other practical information and the latest net asset value per share.

The assets and liabilities of each sub-fund are kept separate by law which means that no sub-fund's assets can be used to pay off debt for other sub-funds.

Shareholders are entitled to convert their shares in the Fund for shares in another sub-fund of CIF. Information about conversions can be found in the prospectus of the Fund.

What are the risks and what could I get in return?

Risk Indicator

The risk indicator assumes that you keep the product for 5 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 4 out of 7, which is a medium risk class.

This rates the potential losses from future performance at a medium level, and poor market conditions could impact our capacity to pay you. The classification may change over time and is not a guarantee.

The risk indicator pre-dominantly captures market risk. For information on other risks that could affect the value of Fund, see the prospectus of the Fund.

This product does not include any protection from future market performance so you could lose some or all of your investment.

If we are not able to pay you what is owed, you could lose your entire investment.

Performance Scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and a suitable benchmark over the last 10 years. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

The unfavourable scenario occurred for an investment in the benchmark between July 2021 and September 2022.

The moderate scenario occurred for an investment in the benchmark between October 2014 and October 2019.

The favourable scenario occurred for an investment in the benchmark between July 2016 and July 2021.

Recommended holding period: 5 years

Example Investment: SEK 100,000

Scenarios		If you exit after 1 year	If you exit after 5 years
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress	What you might get back after costs	21,990 SEK	17,930 SEK
	Average return each year	-78.01 %	-29.09 %
Unfavourable	What you might get back after costs	80,120 SEK	74,690 SEK
	Average return each year	-19.88 %	-5.67 %
Moderate	What you might get back after costs	113,860 SEK	160,310 SEK
	Average return each year	13.86 %	9.90 %
Favourable	What you might get back after costs	152,730 SEK	214,860 SEK
	Average return each year	52.73 %	16.53 %

What happens if Carnegie Investment Fund is unable to pay out?

The assets of the Fund are held in safekeeping by its Depository bank. In the event of insolvency of the Management Company, the Fund's assets will not be affected. In the event of the insolvency of the Depository, or someone acting on its behalf, the Fund may suffer a financial loss. However, this risk is mitigated by the fact that the Depository is required by law and regulation to segregate its own assets from the assets of the Fund.

There is no guarantee- or compensation scheme for investors in the Fund.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest and how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year, you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- SEK 100,000 is invested.

	If you exit after 1 year	If you exit after 5 years
Total costs	157 SEK	1,262 SEK
Annual cost impact (*)	0.2%	0.2% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 10.1% before costs and 9.9% after costs.

Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	We do not charge an entry fee but the person selling you the product may do so.	0 SEK
Exit costs	We do not charge an exit fee for this product.	0 SEK
Ongoing costs [taken each year]		
Management fees and other administrative or operating costs	0.13 % of the value of your investment per year. This is an estimate based on actual costs over the last year.	130 SEK
Transaction costs	This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	27 SEK
Incidental costs taken under specific conditions		
Performance fees	No performance fee is charged for this product	0 SEK

How long should I hold it and can I take money out early?

Recommended holding period: 5 years

The Fund has no minimum holding period but as it invests in equities it is suitable for investors with a medium to long-term investment horizon. Investors should be prepared to hold the fund shares at least until the end of the recommended holding period.

The Fund is normally open for subscriptions and redemptions any day on which banks are open for business in Luxembourg, other than 24 December.

How can I complain?

Should you have a complaint about the Fund you can contact the person advising or selling it to you. You may also contact the Management Company (complaints@carnegroup.com) or the investment manager (<https://www.carnegie.se/private-banking/dokument-och-underlag/synpunkter/>) or write to Carnegie Investment Bank AB, Klagomålsansvarig, SE-103 38 Stockholm, Sweden).
