What is this Product?

Type

The Product is a UCITS and a sub-fund of Carnegie Investment Fund ("CIF"), an investment company with variable share capital (SICAV) organized as an umbrella fund governed by Luxembourg law.

Term

The Product is open-ended but may, at any time, be dissolved by decision of the shareholder's meeting. For more information about this, please refer to the Prospectus of the Product.

Objectives

The Product aims to achieve long-term returns at least in line with or better than global equity markets.

To achieve this, the Product invests in global, including emerging markets, equities and equity-related instruments.

The investment manager has full discretion to decide what equities to invest in without any reference to a benchmark and will integrate mainly environmental factors in the investment process by focusing on investments in enablers of the transition towards sustainable transports, industrial processes, buildings, food value chains as well as energy production and systems.

The Product may also invest in other transferable securities, money market instruments, fund units and other investments with equity-like characteristics. In order to make management more efficient, the Product can also invest in derivative instruments, both long and short, both to protect (hedge) and to take active market risk and may as well enter into securities lending transactions to improve performance and generate income.

The performance of the Product depends on if the Product's investments increase or decrease in value during the holding period.

The Product integrates environmental, social and corporate governance factors as per Article 8 of the EU Sustainable Finance Disclosure Regulation (SFDR). Further information is available in the Product's prospectus and on www.carnegie.se.

The Share Class pays a dividend. The amount to be distributed is determined each year.

Intended Retail Investor

The Product may be suitable for retail investors planning to keep the investment for 5 years and who understand that the money invested in the Product can both increase and decrease in value and that they may not get back the full amount invested. Investors should have a basic knowledge and/or experience of UCITS funds and financial markets.

Practical Information

Depository: CACEIS Bank, Luxembourg Branch

The Product is normally open for subscriptions and redemptions any day on which banks are open for business in Luxembourg and the US, other than 24 December.

Copies of the Product's prospectus, annual reports and latest periodical publications are available, free of charge, from Carne Global Fund Managers (Luxembourg) S.A..

These documents are available in English.

Shareholders are entitled to convert their shares in the Product for shares in another Sub-Fund. Information about conversions can be found in the prospectus of the Product.

The latest published prices of the class, the information regarding the net asset value, the calculations of the performance scenarios and the past performances of the Product are available on the website www.carnegie.se.

What are the risks and what could I get in return?

Risk Indicator

1	2	3	4	5	6	7
---	---	---	---	---	---	---

Lower risk Higher risk

The summary risk indicator assumes you keep the Product until maturity end of the recommended holding period (5 years). The actual risk can vary significantly if you cash in at an early stage and you may get back less. The summary risk indicator is a guide to the level of risk of this Product compared to other products. It shows how likely it is that the Product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this Product as 4 out of 7, which is a medium risk class. This rates the potential losses from future performance at a medium level, and poor market conditions could impact our capacity to pay you.

The risk indicator pre-dominantly captures market risk. For information on other risks that could affect the value of Product, please refer to the prospectus of the Product.

This Product does not include any protection from future market performance so you could lose some or all of your investment.

Performance Scenarios

The figures shown include all the costs of the Product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this Product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate and favourable, scenarios presented represent examples using the best and worst performances, as well as the average performance of the Product and/or the appropriate benchmark indicator over the last 10 years.

Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

Example investment: SEK 100,000

The recommended holding period is 5 years.		If you exit after 1 year	If you exit after 5 years (recommended holding period)
Scenarios			
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress scenario	What you might get back after costs	SEK 50,630	SEK 41,150
	Average return each year	-49.4 %	-16.3 %
Unfavourable scenario	What you might get back after costs	SEK 89,920	SEK 113,330
	Average return each year	-10.1 %	2.5 %
Moderate scenario	What you might get back after costs	SEK 112,190	SEK 174,610
	Average return each year	12.2 %	11.8 %
Favourable scenario	What you might get back after costs	SEK 136,010	SEK 201,620
	Average return each year	36.0 %	15.1 %

This table shows the money you could get back over the recommended holding period of 5 years, under the different scenarios, assuming you invest SEK 100,000.

Unfavourable scenario : this scenario occurred for an investment between 08/2023 and 12/2024.

Moderate scenario : this scenario occurred for an investment between 11/2017 and 11/2022.

Favourable scenario : this scenario occurred for an investment between 04/2016 and 04/2021.

What happens if Carne Global Fund Managers (Luxembourg) S.A. is unable to pay out?

The assets and liabilities of the Product are segregated from those of the other sub-funds and from those of the manufacturer or the custodian. If the Product is not able to pay you out what is due, you may lose your entire investment. No investor guarantee nor compensation scheme is foreseen in that eventuality.

What are the costs?

The person advising on or selling this Product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment over time.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the Product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the Product performs as shown in the moderate scenario ;
- SEK 100,000 is invested.

Example investment: SEK 100,000	If you exit after 1 year	If you exit after 5 years (recommended holding period)
Total costs	SEK 776	SEK 6,881
Annual cost impact (*)	0.8 %	0.9 % each year

(*) This illustrates how costs reduce your return each year over the holding period. For example, it shows that if you exit at the recommended holding period your average return per year is projected to be 12.66 % before costs and 11.79 % after costs.

We may share costs with the person selling the Product to you in order to cover the services they provide to you. If so, this person will inform you of the amount.

Composition of Costs

Investment SEK 100,000 and annual cost impact if you exit after 1 year

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	We do not charge an entry fee the person selling you the Product may do so.	SEK 0
Exit costs	We do not charge an exit fee for this Product.	SEK 0
Ongoing costs (taken each year)		
Management fees and other administrative or operating costs	0.72 % of the value of your investment per year. This figure is based on actual costs over the past year.	SEK 718
Transaction costs	0.06 % of the value of your investment per year. This is an estimate of the costs incurred when we buy or sell the underlying investments for the Product. The actual amount will vary depending on how much we buy and sell.	SEK 58
Incidental costs taken under specific conditions		
Performance fees and carried interest	There is no performance fee for this Product.	SEK 0

These tables show the impact the different costs have on the investment return you might get back at the recommended holding period and the meaning of the different cost categories.

How long should I hold it and can I take money out early?

Recommended holding period : 5 years

The Product has no minimum holding period but as it invests in equities it is suitable for investors with a medium to long-term investment horizon. Investors should be prepared to hold the fund shares at least until the end of the recommended holding period.

The Product is normally open for subscriptions and redemptions any day on which banks are open for business in Luxembourg and the US, other than 24 December.

How can I complain?

If you have any complaints about the Product, the conduct of the manufacturer or the person advising on the Product, complaints can be lodged via the following methods:

E-mail: complaints@carnegroup.com,

Mail: Carne Global Fund Managers (Luxembourg) S.A. 3, Rue Jean Piret, L-2350 Luxembourg.
