## **Investment Manager Report**

#### 1. Report on Räntebärande Investeringar sub-fund

#### **PERFORMANCE**

During 2021 Räntebärande Investeringar (CRI) returned 1.69% for the IA0 share class. This was 2.3 percentage points better than the internal benchmark which returned -0.6%.

#### ANALYSIS OF THE DECISIONS TAKEN BY THE INVESTMENT MANAGER

If we include the exposure to Chinese bonds all five fixed income classes (government bonds, money market, Nordic corporate bonds, investment grade and high yield) contributed positively to performance. However, excluding the exposure to Chinese bonds, both government bonds and investment grade posted negative returns due to rising rates and long duration. The funds *GaveKal China Onshore RMB Bond Fund* (Chinese government bonds) and *GaveKal China Fixed Income* (Chinese IG credit fund), was the best performing holdings and returned 16% and 11.4% respectively. High yield was the best asset class and returned 4.5% followed by Nordic CBs at 3%, investment grade at 1.5%, government bonds at 1% and money market at 0.5%.

On a relative basis almost all of the 2.3 %-points outperformance can be attributed to security selection and being short duration in general whereas the allocation effect was close to 0%. The Chinese bond exposure was the largest contributor also on a relative basis and contributed 1 %-points to the outperformance. Other large positive contributors to the outperformance were the Nordic CB funds and the exposure to US non-Agency MBS that returned 3.6 % versus -1.3 % for US IG. No holding had any meaningful negative contribution on a relative basis – the largest negative contribution was -4 bp from two passive investments: iShares iBoxx \$ Investment Grade Corporate Bond ETF (LQD US) and Vanguard Global Bond Index Fund.

## ALLOCATION OF THE PORTFOLIO

We have not made any large changes to the portfolio during the year and not added any new holdings. BNP iTraxx Main S25 5Y 07/07/2021 matured in July and the proceeds were reinvested in our money market funds. At the end of the year we sold Nordea Global High Yield Bond Fund due to a period of underperformance and instead allocated to our other high yield funds, mainly UBAM Global High Yield Solution.

The average duration is 3.1 years in the portfolio which is roughly 1.3 years shorter compared with the internal benchmark. The running yield is 1.6% compared with 0.8% for the internal benchmark.

We continue to be underweight to developed market government bonds by 13 % and have an overweight to Chinese bonds of 7 %. We also have overweight cash and money market funds by 4% and have smaller overweights to investment grade, high yield and Nordic corporate bonds of around 0-2%.

The investments underlying do not take into account the EU criteria for environmentally sustainable economic activities.

## 2. Report on Högränteplaceringar sub-fund

## PERFORMANCE

During 2021 Högränteplaceringar (CHR) returned 2.9% for the IA0 share class. This was 1.2 percentage points better than the internal benchmark which returned 1.7%.

## ANALYSIS OF THE DECISIONS TAKEN BY THE INVESTMENT MANAGER

On an absolute basis all fixed income classes (Nordic corporate bonds, investment grade, high yield and emerging market debt¹) contributed positively to performance. Our Chinese exposure was the best performing class and returned 11.4% followed by high yield 3.8%, Nordic corporate bonds 3.1% and lastly investment grade at 1.6%.

On a relative basis the outperformance can entirely be attributed to selection effects. The largest contribution versus internal benchmark came from investment grade at 0.6 percentage points followed by Nordic corporate bond at 0.5 percentage points, Chinese bonds at 0.3 percentage points and finally high yield at -0.1 percentage points.

Individual holdings that stood out on the positive side were two new holdings with exposure to iTraxx Crossover SEB iTraxx Crossover S29 8 07/17/23 and SEB iTraxx Crossover S31 7 07/15/24 that returned 28% and 19% respectively. GaveKal China Onshore RMB Bond Fund also performed well and returned 11.4%. One can also add that on a relative basis the exposure to US non-Agency MBS via the fund GAM Star MBS Total Return returned 3.6 % versus -1.3 % for US IG and Evli Corporate Bond returned 3.3% versus European IG at -0.6%.

The only holdings with negative returns during the year were two ETFs with exposure to EUR IG: *iShares EUR Corp Bond ESG ETF* and *db x-trackers ESG EUR Corporate Bond UCITS ETF* that returned -0.8 and -0.7% respectively. The only position that lagged on a relative basis in any meaningful way was *Nordea Global High Yield Bond Fund* which returned 1.8 % versus global high yield at 3.8%.

#### ALLOCATION OF THE PORTFOLIO

In the beginning of the year we added *BlueBay Global High Yield* to the portfolio and in May we bought two new structured products with exposure to iTraxx Crossover representing 4% of the portfolio (mentioned above). We have also slightly reduced our holding in *Nordea Global High Yield Bond Fund* by 3 percentage points during the year.

<sup>&</sup>lt;sup>1</sup> EMD is not part of the strategic allocation but I have included it here to make the analysis more distinguishable.

#### 2. Report on Högränteplaceringar sub-fund (continued)

The average duration is 2.1 years in the portfolio which is roughly 1.3 years shorter compared to the internal benchmark. The running yield is 2.9% compared with 1.8% for the internal benchmark.

We continue to be underweight to investment grade by 6% and have an overweight to Chinese bonds of 4 % and Nordic corporate bonds of 5%. We also have an underweight to "pure" high yield funds of 3% but the overall credit exposure is higher than the internal benchmark stemming mainly from our Nordic corporate bond exposure.

The investments underlying do not take into account the EU criteria for environmentally sustainable economic activities.

## 3. Report on Utländska Aktier sub-fund

#### **PERFORMANCE**

During the year 2021 Utländska Aktier (CUA) returned 26.18% for the IA0 share class and the internal benchmark returned 30.7% (according to our calculations). Most of the underperformance came in the large sector rotations in February/March and December. The rest of the year the sub-fund was slightly better than its internal benchmark.

## ANALYSIS OF THE DECISIONS TAKEN BY THE INVESTMENT MANAGER

The multi-year bull market continued in 2021. As usual, the S&P 500 was the best market with a return of 43%. This means that the index has more than doubled since the bottom in March 2020. Wide Europe ended the year at 28% while Japan stayed at 13%.

At the beginning of 2021, China looked set to a good year (later in the recovery). However, new regulations came which, above all, hurt the large IT companies, and the turmoil in the real estate sector hurt the negative sentiment even more. China was down 15%. Although markets such as India and Taiwan rose around 40%, broad emerging markets stayed at 7%. Frontier Markets rose by as much as 52%.

The portfolio began the year strongly supported by, above all, the thematic part of the portfolio and the overweight position in China. In February / March, we saw a sharp sector rotation because of the rapid rise in interest rates and the re-opening of economies. The interest rate-sensitive growth companies (mainly tech companies) sold off massively. At the same time, the more cyclically sensitive sectors (banking and energy companies) performed well. This rotation hit hard on the portfolio's relative return, especially active managers and the thematic part of the portfolio struggled. Both positions were reduced, and the proceeds were mainly invested in ETFs following the S&P500 index and new cyclical elements were introduced as Copper Mining ETF and Smart Material fund. The portfolio's more cyclically sensitive holdings helped, but that was far from enough. During the second quarter came the more contagious delta variant and rising inflation. In this environment, the portfolio did ok when the growth companies came back. During the autumn, it became increasingly clear that inflation was not transient and at the same time, energy prices shot up. Central banks became more restrictive, and an even more contagious variant Omikron made societies too shut down again. The sub-fund bought US Banks ETF to get more cyclical exposure. Especially in December, the portfolio loses further against the index when we saw a similar sector rotation as in February / March. Again, the thematic part of the portfolio and active managers are going through a tough period.

## ALLOCATION OF THE PORTFOLIO

The sub-fund is still neutral to most regions. It still has a slight underweight position to EM (10%) and is long RoW. Within EM the largest position is off-benchmark Frontier Markets (3.2%). The thematic part of the portfolio is now 13%, down from 18% in the beginning of 2021. The share of active managers (excluding EM) is 16%, halved from its peak in the beginning of the year. Passive and tactical (e.g. US Banks and EqW US) holdings in DM make up 60% of the portfolio.

The investments underlying do not take into account the EU criteria for environmentally sustainable economic activities.

#### 4. Report on Alternativa Investeringar sub-fund

#### **PERFORMANCE**

During 2021 Alternativa Investeringar returned 4.86 % for the IAO share class, compared to the internal benchmark which returned 2.13 %.

## ANALYSIS OF THE DECISIONS TAKEN BY THE INVESTMENT MANAGER

2021 was a very strong year for the global equity markets as MSCI ACWI returned 18.5 % and the Stockholm Internal Benchmark index returned 35.3 %. The year was however not as strong for the broad hedge fund category of funds. The equal weighted hedge fund index returned approximately 2.9 %, which considering the stellar year of 2020 is a bit of a disappointment. However, the dispersion among managers is on the other hand quite large as a few events made 2021 troublesome for many hedge fund managers.

In the early part of the year the Reddit subforum WallStreetBets started a wave of short squeezes, whereby organizing a large group to buy shares in companies with a lot of short interest they created large losses for hedge funds with short exposure to those names, the most famous victim being Melvin Capital. These events were followed by a massive surge in economic normalization after the spread of the vaccine, which sparked a massive demand shock to the already constrained supply of the commodity market. This resulted in massive price increase for almost all commodities. Energy related commodities and timber being the most affected. The massive price increases in commodities added to the already stimulus driven inflation pressure and sparked a change in attitude towards monetary support from the Federal Reserve. This created a lot of volatility in the global long- and medium-term government bonds yields. This volatility affected a lot of fixed income relative value hedge funds, two examples from Sweden where one hedge fund under the Brummer umbrella had to shut down operations after too large losses.

Most of the portfolio delivered positive returns. The worst performers were the energy hedge fund Shepherd Energy and the FX hedge fund LCJ, which were liquidated after we had lost confidence in them having the ability to earn back the losses within a reasonable future. Both funds shut down shortly after. Other negative contribution came from JARA and AERI, as well as Pictet Absolute Return and Kimura. The winner of the portfolio has been Pictet Distressed Debt and Special Situations Fund with returns over 30% per their latest estimate, they have been riding the wave of strong energy prices which significantly strengthened the balance sheets of the 2020 Covid losers. Other winners have been the merger arbitrage manager Oddo BHF and the volatility hedge fund Blue Diamond, who both saw a persistence of the same factor which made 2020 a strong year. Factors such as a glowing hot M&A market as well as high volatility. A strong housing market also contributed to our holding in UBS Global Real Estate Fund to have a great year. Particularly considering the low expected return and volatility of real estate as an asset class. As for our exposure to fixed income relative arbitrage via BTG Pactual Rates fund did not suffer significant losses as their peers during the sudden increase in interest rate volatility. As such we can attribute a lot of the outperformance of the year to successful manager selection

#### ALLOCATION OF THE PORTFOLIO

During 2021 several new investments were added to the portfolio. A lot was done to play the rising energy prices, inflation and increasing volatility. First of which via direct bets on crude oil via options as well as our exposure to distressed debt who had a large energy sector exposure. The inflation aspect was played via our global real estate exposure via the UBS fund. Allocation for a sticky volatility level was done primarily by continuously increasing our exposure to Blue Diamond Non-Directional Fund. In the early part of the year the fund redeemed its holding with Kimura Trade Finance Fund, who had to side-pocket a large portion of that remaining position due to a nonperforming loan, which however is stated to be insured, but the process of claiming the insurance is expected to be around 3-9 months.

No larger positions were initiated during Q4 2021.

The investments underlying do not take into account the EU criteria for environmentally sustainable economic activities.

## REPORT OF THE REVISEUR D'ENTREPRISES AGRÉÉ

#### Opinion

We have audited the financial statements of Carnegie Wealth Management Fund SICAV (the "Fund") and of each of its sub-funds, which comprise the statement of net assets and the statements of investments as at December 31, 2021 and the statement of operations and changes in net assets for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of the Fund and of each of its sub-funds as at December 31, 2021, and of the results of their operations and changes in their net assets for the year then ended in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements.

#### **Basis for Opinion**

We conducted our audit in accordance with the Law of July 23, 2016 on the audit profession (Law of July 23, 2016) and with International Standards on Auditing (ISAs) as adopted for Luxembourg by the "Commission de Surveillance du Secteur Financier" (CSSF). Our responsibilities under the Law of July 23, 2016 and ISAs as adopted for Luxembourg by the CSSF are further described in the "Responsibilities of the "réviseur d'entreprises agréé" for the Audit of the Financial Statements" section of our report. We are also independent of the Fund in accordance with the International Code of Ethics for Professional Accountants, including International Independence Standards, issued by the International Ethics Standards Board for Accountants (IESBA Code) as adopted for Luxembourg by the CSSF together with the ethical requirements that are relevant to our audit of the financial statements, and have fulfilled our other ethical responsibilities under those ethical requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

## Other Information

The Board of Directors of the Fund is responsible for the other information. The other information comprises the information stated in the annual report but does not include the financial statements and our report of the "réviseur d'entreprises agréé" thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements, or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report this fact. We have nothing to report in this regard.

## Responsibilities of the Board of Directors of the Fund for the Financial Statements

The Board of Directors of the Fund is responsible for the preparation and fair presentation of the financial statements in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements, and for such internal control as the Board of Directors of the Fund determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors of the Fund is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors of the Fund either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

## Responsibilities of the "réviseur d'entreprises agréé" for the Audit of the Financial Statements

The objectives of our audit are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue a report of the "réviseur d'entreprises agréé" that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with the Law dated July 23, 2016 and with ISAs as adopted for Luxembourg by the CSSF will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

# Deloitte.

As part of an audit in accordance with the Law dated July 23, 2016 and with ISAs as adopted for Luxembourg by the CSSF, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors of the Fund.
- Conclude on the appropriateness of the Board of Directors of the Fund use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our report of the "réviseur d'entreprises agréé" to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our report of the "réviseur d'entreprises agréé".
- Evaluate the overall presentation, structure, and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

# Notes to the Financial Statements as at December 31, 2021

#### NOTE 1 - General

The Fund is an open-ended investment company organised as a public limited company (*société anonyme*) under the laws of the Grand Duchy of Luxembourg and qualifies as a *société d'investissement à capital variable* under Part II of the Luxembourg Law of December 17, 2010 (the "Law of 2010") relating to undertakings for collective investment (UCIs), as amended and as an externally managed alternative investment fund ("AIF") under the amended AIFM Law of July 12, 2013 relating to alternative investment fund managers (the "Law of 2013"). The Fund offers investors a choice between several sub-funds. The Fund is subject to Part II of the Law of 2010 because each sub-fund may borrow up to a maximum of 50% of its net assets for investment purposes which is not permissible for investment funds subject to Part I of the Law of 2010.

As per current prospectus, the Fund has 4 active sub-funds (the "sub-funds").

The Fund has appointed Carne Global Fund Managers (Luxembourg) S.A. as its external AIFM on November 1, 2021. Prior to this the acting AIFM was VP Fund Solutions (Luxembourg) S.A..

The financial year of the Company starts on January 1, and ends on December 31.

As at December 31, 2021 the Company offered the following sub-funds:

Carnegie Wealth Management Fund SICAV – Alternativa Investeringar

Carnegie Wealth Management Fund SICAV – Högränteplaceringar

Carnegie Wealth Management Fund SICAV – Räntebärande Investeringar

Carnegie Wealth Management Fund SICAV – Utländska Aktier

## **NOTE 2 - Summary of Significant Accounting Policies**

The financial statements are prepared in accordance with generally accepted accounting principles and in accordance with the regulations on UCIs in force in Luxembourg.

## 2.1 Combined financial statements

The various items in the combined financial statements corresponds to the sum of the corresponding items in the financial statements of each sub-fund, converted if necessary into SEK at the exchange rates prevailing on the closing date.

## 2.2 Valuation of investments

- a) The value of any cash on hand or on deposit, bills and demand notes and accounts receivable, prepaid expenses, dividends and interests declared or due but not yet collected will be deemed to be the full value thereof, unless it is unlikely that such values are received in full, in which case the value thereof will be determined by deducting such amount the Board of Directors of the Fund ("the Directors") consider appropriate to reflect the true value thereof.
- b) Securities and money market instruments admitted to an official listing on a stock exchange or which are traded on another regulated market which operates regularly and is recognised and open to the public are valued at the last available price on such stock exchange or market. If the same security or money market instrument is quoted on different markets, the quotation of the main market for this security or money market instrument will be used.
- c) Securities or money market instruments not listed on any stock exchange or traded on any regulated market or securities or money market instruments for which no price quotation is available or for which the price referred to in (b) is not representative of the fair market value, will be valued prudently, and in good faith on the basis of their reasonable foreseeable sales prices.
- d) Investments in investment funds of the open-ended type are taken at their latest net asset values reported by the administrator of the relevant investment fund.
- e) Futures are valued on the basis of the last available liquidation price on the futures market. Options are valued on the basis of their last available price on the concerned market.
- f) Swaps and OTC derivatives in general are valued at their real value, which is based on the last available price of the underlying security.
- g) Assets expressed in a currency other than the Reference Currency shall be converted on the basis of the rate of exchange ruling on the relevant business day in Luxembourg.

## NOTE 15 - Events During the Financial Year

The Board of Directors of the Fund decided to transfer the function of Management Company, Domicilary Agent and Paying Agent to Carne Global Fund Managers (Luxembourg) S.A.. The transfer became effective on November 1, 2021.

The Board of Directors of the Fund decided to transfer the function of Depositary, Paying Agent, Administrative, Registrar and Transfer Agent to RBC Investor Services Bank S.A., 14, Porte de France, L-4360 Esch-sur Alzette, Luxembourg. The transfer became effective on November 1, 2021.

## **NOTE 16 - Subsequent Events**

In February 2022, a number of countries (including the US, UK and EU) imposed sanctions against certain entities and individuals in Russia as a result of the official recognition of the Donetsk People Republic and Lugansk People Republic by the Russian Federation. Announcements of potential additional sanctions have been made following military operations initiated by Russia against the Ukraine on February 24, 2022. The situation, together with growing turmoil from fluctuations in commodity prices and foreign exchange rates, and the potential to adversely impact global economies, has driven a sharp increase in volatility across markets. The Board of Directors of the Fund regards these events for the Fund as non-adjusting events after the reporting year. Although neither the Fund's performance and going concern nor operations, at the date of this report, have been significantly impacted by the above, the Board of Directors of the Fund continue to monitor the evolving situation and its impact on the financial position of the Fund.

## Risk management

The AIFM has established and maintains a dedicated risk management system to identify, measure, manage and monitor on an ongoing basis the risks relevant to each AIF's Investment Objective including, in particular market, credit, liquidity, counterparty, operational and other relevant risks. Both quantitative and/or qualitative risk limits have been established and were monitored by the AIFM. No material changes were made in relation to the risk management system.

## Material Changes of the AIFM

From January 1, 2021 to December 31, 2021 and apart from one exception the Carne Senior Management Team remains unchanged with the following areas of responsibility:

- Pascal Dufour IT, Accounting & Finance, UCI Administration, Branch
- Ankit Jain Valuation
- Quentin Gabriel Portfolio Management
- Christophe Douche Risk Management
- Cord Rodewald Compliance, Complaints and AML/CFT

Ross Thomson, responsible for Distribution, left Carne in May 2021. Cord Rodewald took over Ross Thomson's responsibilities on an interim basis until Pierre Yves Jahan was appointed as Conducting Officer for Distribution in November 2021.

## Remuneration

The AIFM has designed and implemented a remuneration policy (the "Remuneration Policy") in line with the provisions on remuneration as set out by the European Directive 2011/61/EU as amended and implemented into Luxembourg Law of 12 July of 2013 (the "AIFM Regulations").

The AIFM has developed and implemented remuneration policies and practices that are consistent with and promote sound and effective risk management of the AIF, do not encourage risk-taking which is inconsistent with the risk profiles/rules governing the AIF, and do not impair compliance with the AIFM's duty to act in the best interest of the AIF and ultimately its investors.

The Board of Directors of the AIFM is responsible for the design, implementation and regular review of the Remuneration Policy. In reviewing the Remuneration Policy, the Board of Directors of the AIFM will consider whether the remuneration framework operates as intended and that the risk profile, long-term objectives and goals of the AIFs it manages are adequately reflected.
